LEDVANCE

POWER THROUGH LIGHT

A close-up photograph of a woman with dark, curly hair. She is holding a glowing light bulb in her right hand, which is raised towards her face. The light from the bulb illuminates her face and hair, creating a warm, golden glow. She is looking upwards and to the right with a slight smile. She is wearing a large, dark, circular hoop earring and a light-colored, textured cardigan over a pink top.

BATHROOM LUMINAIRES

Having the right light in the bathroom makes all the difference to your day.

A comfortable atmosphere in which we feel at ease is essential. At the same time, the lighting needs to be flexible to allow everything from relaxing, dimmed feel-good lighting to optimum illumination in front of a make-up mirror.

The high-quality bathroom luminaires from LEDVANCE are just the right choice. They are designed for a modern and responsible lifestyle. Our smart lights, for example, can be controlled by app or voice command, are dimmable and have a changeable color temperature. LEDVANCE products rely on the latest LED technology for its bathroom luminaires: energy-efficient, dimmable and with low heat generation.

After all, this is how you want to start and end your day: In the best light.

A man and a woman are in a dressing room. The man, on the right, is smiling and looking at his smartphone. He is wearing a grey robe over a grey t-shirt. The woman, on the left, is seen from the back, wearing a red robe. They are standing in front of a large, rectangular mirror mounted on a light-colored wooden wall. The mirror reflects the woman's face as she looks at her phone. Above the mirror, there is a horizontal light fixture with four circular lights. To the right of the mirror, there is a vertical light fixture with three circular lights. Below the mirror, there is a white rectangular sink. The overall atmosphere is warm and modern.
